

NEW

Our new App:
„BOATCONTROL“

BoatControl is the latest addition to the EPT cooperation. BoatControl is not only an App to see the battery capacity of your EPT batteries but also a remote control for your Boat. BoatControl gives you shore power and charger control, 14 contacts of your choice and NMEA 2000 interface from your boat data.

Access your box both at sea and from home. We have taken care of the difficult matters regarding the connections to make the installation easy for you. Just open your App and you will automatically be connected to your box with a secure connection. On board you can connect directly via Bluetooth, WiFi and via the remote control over the cloud.

Everything can be done on your mobile.

BOATBOX

Connects the box electrically, then it is easy to install the setup over the mobile App.

Technical specifications:

- L x W x H: 220 x 116 x 46 mm
- Connection: 6.3 mm cable lugs, NMEA2000, WiFi and Bluetooth
- Power supply: 9 to 30 VDC
- Normal power consumption: 3 W Max 6.5 W
- Channels/contacts: 14 pcs 10 A, max load 100 A
- Control lamps/diodes: 1 green per channel, 1 red for supply voltage
- Manual switch: 1 push switch
- Mounting: Vertical or horizontal

14 contacts

In BoatControl you can set up the buttons to fit your boat. Choose an icon and write your own text on it, then you are in no doubt what is on and off.

Function settings:

The switches can be set as momentary or latching.

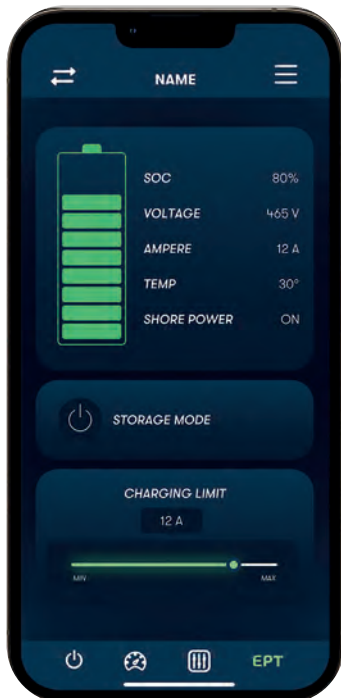

Make your data available

Wherever you are in the world, your data and your boat are never further away than your mobile.

Read your NMEA 2000 data and check wind, depth, course, position, speed, tank and much more from your navigation instruments directly on your App.

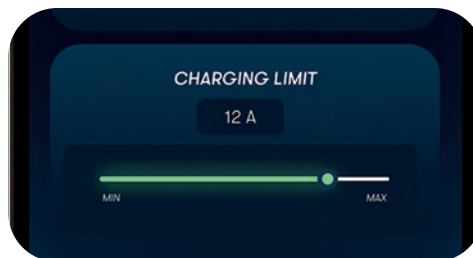

It gives you security and an in-depth knowledge of your boats condition.

EPT control

This page gives you full control over your EPT propulsion and your EPT batteries.

You can monitor your lithium batteries, both for your propulsion and consumption low voltage batteries, shore power and control your charging.

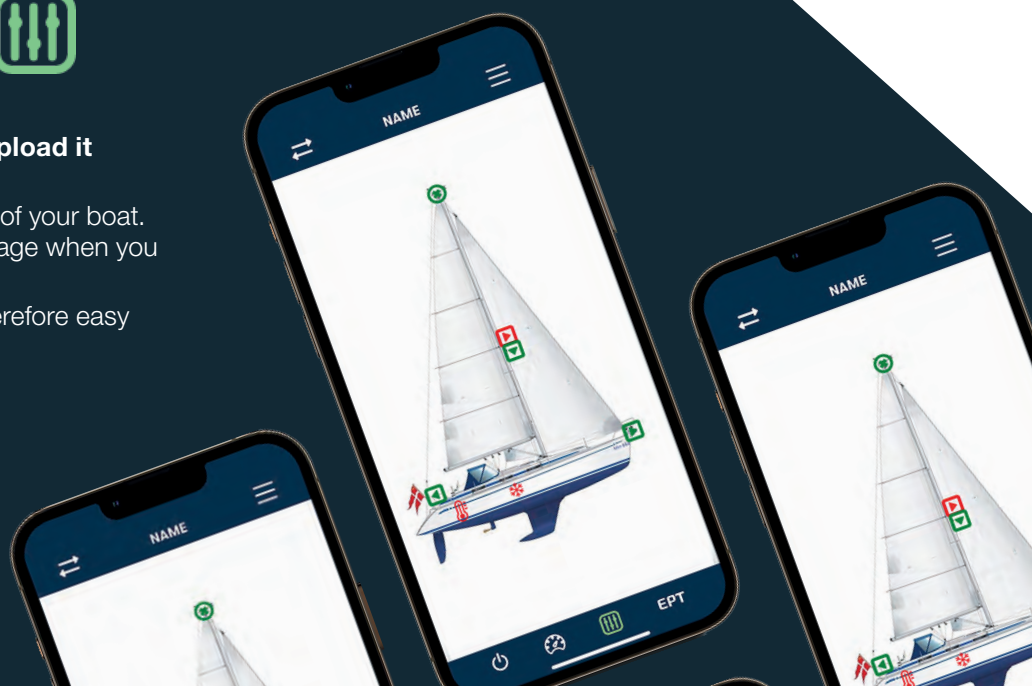

Our App, your boat

Take an image of your boat and upload it to the App.

Place the push buttons on the image of your boat. Now you can press directly on the image when you want to change status.

The buttons have 2 colors and it's therefore easy to see what's on or off.
